

# Package: jdenticon (via r-universe)

August 30, 2024

**Title** A Wrapper for the Node.js 'Jdenticon' Library

**Version** 0.1.1

**Description** A Wrapper for the Node.js 'Jdenticon'  
<<https://jdenticon.com/>> Library. Uses 'esbuild'  
<<https://esbuild.github.io/>> to reduce user dependencies.

**License** MIT + file LICENSE

**Encoding** UTF-8

**Roxygen** list(markdown = TRUE)

**RoxygenNote** 7.2.1

**Suggests** testthat (>= 3.0.0)

**Config/testthat/edition** 3

**Imports** fs, processx, yesno, magick, glue, jsonlite

**Repository** <https://mattroumaya.r-universe.dev>

**RemoteUrl** <https://github.com/mattroumaya/jdenticon>

**RemoteRef** HEAD

**RemoteSha** 28dd37062501ea08c566eb5b6fdcff2b6c12217c

---

 jdenticon

*Create a Jdenticon.*

---

## Description

Create a Jdenticon.

## Usage

```

jdenticon(
  value = NULL,
  filePath = tempdir(),
  fileName = glue("jdenticon_{size}_{value}"),
  size = "100",
  config = NULL,
  type = "png",
  preview = interactive() && Sys.getenv("RSTUDIO") == "1",
  return_list = FALSE
)

```

## Arguments

value	character Value to be converted to hexadecimal hash to render Jdenticon. Cannot contain characters that are reserved for filepaths:
filePath	character File path to save Jdenticon .png to. If NULL, defaults to current working directory.
fileName	character File name to save Jdenticon .png as. If NULL, defaults to temp_jdenticon_{value}.
size	numeric Size of Jdenticon. Default == 100.
config	list of jdenticon configuration options (see <a href="#">the jdenticon documentation</a> )
type	Image type (default 'png', or 'svg')
preview	boolean Preview Jdenticon in viewer pane?
return_list	boolean Return full list object with all settings?

## Value

Path to Jdenticon icon file, or (if return\_list is true) a list with all parameters (including path).

## Examples

```

## Not run:
jdenticon(value = 'mango')

## End(Not run)

```

---

`jdenticon_npm_install` *Install jdenticon npm dependency.*

---

**Description**

Install jdenticon npm dependency.

**Usage**

```
jdenticon_npm_install(force = FALSE)
```

**Arguments**

<code>force</code>	boolean If TRUE, automatically proceeds with npm installation. If FALSE (default), prompts user before proceeding with npm installation.
--------------------	--

**Value**

Updated inst/node\_modules folder.

**Examples**

```
## Not run:  
jdenticon_npm_install(force = TRUE)  
  
## End(Not run)
```
